

Studio Tutorials - Makeup

Seasonal Update - Approx 1hr - £40.00

A great session for updating your look with the season. Inspired by catwalk shows, we will look at how to incorporate seasonal trends into your everyday look using products you already have and suggesting the introduction of some new ones! Ideal if you are confident with your makeup application and like to keep up to speed with what's new. Don't forget your makeup bag!

Application Tutorial - Approx 1hr - £40.00

This session is very much client led, as we focus on the application areas that you would most like to improve. Popular choices include colour matching/applying foundation, contouring and adding definition to the eyes. An informative session that builds on your current techniques while we have some fun too!

Signature Look Session - Approx 2hrs - £75.00 *£15 redeemable against products*

The ultimate session that is suitable for complete beginners as well as those that would like a little more confidence when applying makeup and selecting products, this session centres around designing a makeup look that fits with your lifestyle, career and time commitments. An interactive session that gets you hands on with product and brushes, we will work together on colour choices, application techniques and how to adapt a day look to for evening and special occasions. After the session we will send you your Signature Look face chart showing before and after pictures, colour and formulation suggestions, and a 'remind' me list of the key application techniques to recreate your look at home.

All of our makeup tutorials are suitable for small groups, and a range of non-professional workshop style courses is launching soon in our Academy, please contact us, or visit our website for further details.
